

# KITCHEN AND CANOPY CLEANING SOLUTIONS

**Sanitary kitchens. Safe results.**

With Tsebo Cleaning Solutions' specialised cleaning we not only clean your kitchen equipment and filters but also sanitise all surfaces with every clean. We make use of specialised equipment, highly trained staff and certified food safe chemicals to provide you with deep cleaned and hygienic results.

## THE CHALLENGE

Did you know that absenteeism due to food borne diseases, caused by Salmonella and Listeria, is one of the biggest contributors to employee absenteeism in the world?

Furthermore, if your approach to kitchen canopy cleaning isn't radical, consider this: 70% of fires in commercial kitchens are caused by fat, grease buildup and defective ventilation.

Kitchens are busy environments operating all hours of the day and night. A professional kitchen needs to be a clean, safe and hygienic environment to comply with approved food hygiene and safety regulations.

We work around you and your business needs to provide a flexible and professional cleaning service that will not only help you comply to occupational health and safety regulations, but also leave your kitchen looking as good as new.

Cleaning  
and hygiene  
beyond the  
obvious
