

EDUCATIONAL ENVIRONMENTS CLEANING, HYGIENE & PEST CONTROL SOLUTIONS

Creating Safer Learning Spaces Through Science and Innovation

Educational institutions are high-touch environments where the interaction between students, educators, and staff is constant. Maintaining hygiene, cleanliness, and pest-free surroundings is crucial to ensuring safe learning spaces that support academic success. Tsebo's integrated Cleaning, Hygiene, and Pest Control solutions provide tailored services that address these critical needs efficiently and effectively.

THE CHALLENGE

Universities, colleges, schools, and childcare centres face unique hygiene and cleaning challenges. Frequent physical interactions, shared spaces, and the use of equipment in classrooms, laboratories, sports facilities, and recreational areas increase the risk of cross-contamination. The presence of pests further exacerbates health hazards, impacting hygiene and compliance standards.

Tsebo's holistic approach ensures thorough cleaning, effective hygiene management, and strategic pest control to uphold high sanitation levels and prevent disruptions to learning activities.

OUR INTEGRATED SOLUTION

Cleaning Services

Excellence Beyond the Surface

Leveraging years of expertise in healthcare cleaning, Tsebo applies

scientifically backed methods to educational environments, offering:

- Daily surface and touchpoint cleaning to eliminate pathogens and reduce absenteeism.
- Specialised deep cleaning for kitchens, laboratories, sports facilities, high-traffic areas, high access areas and windows.
- Environmentally friendly products that align with sustainability goals.

Hygiene Services

Redefining Well-being in Educational Spaces

Effective hygiene solutions play a crucial

role in reducing the spread of bacteria and viruses while fostering a healthier learning environment.

Tsebo's Hygiene Services include:

- Sanitisation stations to promote hand hygiene among students and staff.
- Washroom hygiene solutions, including touch-free soap dispensers, air fresheners, and sanitary bins.
- Low-cost, high-efficiency consumable management, ensuring optimal hygiene standards.
- Flexible consumable supply for cost-effective hygiene management.

Pest Control

Protecting Health and Infrastructure

Pests pose a significant health and structural risk to educational institutions.

Tsebo's Integrated Pest Management (IPM) provides a sustainable, proactive approach with:

- Rodent and insect control solutions to prevent infestations and maintain compliance.
- Fly and cockroach management to safeguard hygiene in kitchens and canteens and all common areas.
- Regular inspections and monitoring to ensure long-term pest-free environments.

THE TSEBO ADVANTAGE

Science-Based Cleaning & Hygiene
